REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The primary reason for allowance is that the prior art of record does not disclose or suggest the superficial liquid linear velocity of the feed stream is greater than about 0.2 cm/s and the one pass conversion of a heteroatom is greater than 50%. The Soni prior art does not disclose that the superficial liquid linear velocity of the feed stream is greater than about 0.2 cm/s and the Irandoust prior art is not a one-pass reactor but a recycle reactor. Therefore, it is not obvious to combine the two references.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
